EXPERIENCE

Web Development Intern

June 2024 – July 2024

The Sparks Foundation

Remote

- Built a banking system web application using **HTML**, **CSS**, and **JavaScript** featuring account management, money transfers, and transaction history tracking.
- Implemented dynamic user interactions and client-side state management using **JavaScript** and direct **DOM manipulation** without frontend frameworks.
- Used **Git** and **GitHub** for version control, maintained project documentation, and completed assigned internship deliverables within the internship timeline.

PROJECTS

Personal Finance Manager Platform | [GitHub Link](#) [Website Link](#)

- Developed a personal finance management application using **Next.js 14**, **TypeScript**, **Tailwind CSS**, and **Supabase** with secure user authentication and a responsive interface.
- Implemented features such as budget tracking, transaction management, savings goal tracking, and bill reminders to help users manage their finances.
- Used **Supabase Authentication** and **PostgreSQL** to securely store and manage user data.

PDF Chat Application Analysis | [GitHub Link](#) [Website Link](#)

- Built an AI-powered document question-answering system using **LangChain**, **FAISS**, **PyPDF2** and **Streamlit**.
- Implemented document chunking, embedding generation, and semantic retrieval using vector search to answer user queries from uploaded PDFs.
- Developed an interactive **Streamlit** interface with multi-tab navigation and deployed the application for handling real-time user queries efficiently.
- Managed project development using **GitHub**, including tracking changes, maintaining code versions, and organizing updates.

Smart Study Management Platform | [GitHub Link](#) [Website Link](#)

- Built a full-stack study management platform using **Next.js**, **TypeScript**, and **Supabase** with features for study plan generation, task management, and progress tracking.
- Designed and managed the **PostgreSQL** database using **Supabase** and implemented user authentication for secure access to study resources and tasks.
- Created a responsive user interface using **Tailwind CSS** and integrated **Google OAuth** login to simplify user sign-in.

EDUCATION

NIMS University

Jaipur, India

Bachelor of Technology in Computer Science Engineering, CGPA: 8.80/10

2023 – 2027

ACHIEVEMENTS

- Secured **AIR 83** among **20,000+ participants** in **CodeChef Starter 184 (2025)**.
- **1700+ rating** on **CodeChef**, **1350+ rating** on **Codeforces** and **1700+ rating** on **Leetcode**.
- Solved **500+ DSA problems** on platforms like **CodeChef** and **LeetCode**, strengthening core coding skills.
- Contributed to the **EduAid project under AOSSIE** while preparing a **GSoC 2026** proposal, gaining experience with bug fixing, feature enhancements, code reviews, and collaborative Git workflows in a large open-source codebase.

TECHNICAL SKILLS

Languages: C, C++, Python, Javascript, TypeScript, SQL

Frontend: React.js, Next.js, Tailwind CSS, HTML

Backend: Node.js, Express.js, REST APIs, Supabase, PostgreSQL

AI/ML Stack: LangChain, NLP, FAISS, PyTorch, Vector Databases

Tools: Git, GitHub Actions, CI/CD, Google Colab, Streamlit, Vercel

Core Concepts: Data Structures and Algorithms, OOPS, DBMS, CN, OS, JWT Authentication
